The Partnership's headquarters are located in Mississauga, Ontario, Canada.

#### 2 Basis of presentation

These unaudited condensed consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) applicable to the preparation of interim financial statements, including International Accounting Standard (IAS) 34 - Interim Financial Reporting as issued by the International Accounting Standards Board (IASB), and with interpretations of the International Financial Reporting Committee which the Canadian Accounting Standards Board has approved for incorporation into Part 1 of the CPA Canada Handbook - Accounting. These unaudited condensed consolidated financial statements should be read in conjunction with the annual consolidated financial statements of the Partnership for the year ended December 31, 2016.

The 3-month period ended September 24, 2017 represents the 91 day period from June 26 to September 24, 2017 and the 3-month period ended September 25, 2016 represents the 91 day period from June 27 to September 25, 2016. The 9-month period ended September 24, 2017 represents the 267 day period from January 1 to September 24, 2017 and the 9-month period ended September 25, 2016 represents the 269 day period from January 1 to September 25, 2016.

These unaudited condensed consolidated financial statements were approved by the board of directors of KPGP on November 7, 2017.

#### **3** Summary of significant accounting policies

The significant accounting policies that have been used in the preparation of these unaudited condensed consolidated financial statements are described in the annual consolidated financial statements of the Partnership for the year ended December 31, 2016 and have been applied to all periods presented except the following accounting policies, which were adopted effective January 1, 2017.

- (i) IAS 7, Statement of Cash Flows. In January 2016, the IASB issued an amendment to require an entity to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes. Other than the aforementioned additional disclosures, which will be included in the annual consolidated financial statements, the application of the amendments to IAS 7 did not result in any changes to the presentation of the unaudited condensed consolidated statement of cash flows.
- (ii) IAS 12, Income Taxes Deferred Tax. In February 2016, the IASB issued an amendment to clarify the requirements for recognizing deferred tax assets on unrealized losses. The amendment clarifies the accounting for deferred tax where an asset is measured at fair value and that fair value is below the asset's tax base. Certain other aspects of accounting for deferred tax assets are also clarified. The adoption of this standard had no impact on the unaudited condensed consolidated financial statements.
- (iii) In December 2016, the IASB issued an amendment clarifying the scope of IFRS 12, Disclosure of Interests in Other Entities. The amendment clarified that the disclosures requirement of IFRS 12 are applicable to interest in entities classified as held for sale, except for summarized financial information. The adoption of this standard had no impact on the unaudited condensed consolidated financial statements.

The impact of new standards, amendments to standards and interpretations that have been issued but not yet effective for financial periods beginning on or after January 1, 2018 and have not been early adopted have been discussed in the annual consolidated financial statements for the year ended December 31, 2016, except for the following:

(i) IFRS 15, Revenue from Contracts with Customers, was issued by the IASB in May 2014. The standard specifies how and when to recognize revenue as well as requiring entities to provide users of financial statements with some informative, relevant disclosures. The standard supersedes IAS 18, Revenue, IAS 11, Construction Contracts, and a number of revenue-related interpretations. Application of the standard is mandatory for all IFRS reporters and it applies to nearly all contracts with customers: the main exceptions being leases, financial instruments and insurance contracts. In September 2015, the IASB issued an amendment to defer the mandatory effective date to interim periods beginning on or after January 1, 2018, with early adoption permitted. In April 2016, the IASB issued an amendment to clarify the guidance on identifying performance obligations, licences of intellectual property and principal versus agent, and to provide additional practical expedients on transition. The amendment is effective for annual periods beginning on or after January 1, 2018.

Management has performed a preliminary assessment of IFRS 15 adoption and does not expect a significant impact on the consolidated financial statements. It is expected that the application of IFRS 15 will result in a change in the revenue recognition related to Other long term assets. Management expects to adopt IFRS 15 using the modified retrospective approach. A transitional adjustment to reduce the balance related to the dispensers currently recorded in Other long term assets is expected to be recognized in retained earnings (deficit) on the date of initial application, January 1, 2018, and is expected to be approximately \$6 million.

- (ii) IFRS 9, Financial Instruments. In July 2014, the IASB issued the final version of IFRS 9 Financial Instruments, bringing together the classification and measurement, impairment and hedge accounting phases of the IASB's project to replace IAS 39 Financial Instruments: Recognition and Measurement. The mandatory effective date of IFRS 9 would be annual periods beginning on or after January 1, 2018, with early adoption permitted. Management is evaluating the estimated impact of the new standard on the consolidated financial statements. Additional details are expected to be disclosed in the annual consolidated financial statements.
- (iii) IFRS 16, Leases. In January 2016, the IASB issued IFRS 16, Leases which replaces the current guidance in IAS 17, Leases. IFRS 16 requires lessees to recognize a right-of-use asset and a lease liability reflecting future lease payments for virtually all lease contracts. IFRS 16 must be applied to an entity's first annual IFRS financial statements for periods beginning on or after January 1, 2019, with early adoption permitted. Management can elect to adopt IFRS 16 using either the full retrospective approach or the modified retrospective approach.

Management has performed a preliminary assessment of IFRS 16 adoption and expects a significant impact on the consolidated financial statements. The right-of-use asset and lease liability are expected to be material to the consolidated statement of financial position. There is expected to be a change in presentation on the consolidated statement of comprehensive income and a significant impact on Adjusted EBITDA. IFRS 16 replaces operating lease expense (recorded in Cost of sales and Selling, general and administrative expenses) with a depreciation charge for right-of-use assets and interest expense on lease liabilities. The amount related to the depreciation charge and interest expense will differ from the previous operating lease expense. Both the depreciation charge and interest expense are excluded from the calculation of Adjusted EBITDA, while the operating lease expense was previously included in the calculation. Changes to systems and processes are expected to be required, in order to collect the new data requirements.

Management is evaluating the potential implications on data systems, internal controls over financial reporting, information technology, business processes, and financing and compensation arrangements. Management is also evaluating the transition approach it will apply and whether it will use the optional

(tabular amounts are in thousands of Canadian dollars, except unit amounts)

exemptions or practical expedients under the standard. Additional details, including the transition approach, practical expedients elected and estimated quantitative impact on the consolidated financial statements are expected to be disclosed before the adoption of IFRS 16.

(iv) IFRIC 23, Uncertainty over income tax treatments. In June 2017, the IFRS Interpretation Committee issued an interpretation which clarifies how the recognition and measurement requirements of IAS 12 Income taxes, are applied where there is uncertainty over income tax treatments. The interpretation is effective for annual periods beginning on or after January 1, 2019. Management is evaluating the amended standard and has not yet determined the impact on the consolidated financial statements.

### 4 Critical accounting estimates and judgments

The preparation of these unaudited condensed consolidated financial statements in conformity with IFRS requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities in the unaudited condensed consolidated financial statements and the disclosure of contingencies at the dates of the unaudited condensed consolidated statements of financial position, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The estimates and judgement applied by management that most significantly affect the unaudited condensed consolidated financial statements are the same as the ones that applied to the audited consolidated financial statements for the year ended December 31, 2016.

(a) Environmental and asset retirement obligations

The Partnership has made a provision for the potential obligation under a land lease at one of its plant locations to demolish the building and restore the land at the end of the lease to its original condition. The current lease ends in 2028 but an extension is currently being negotiated. The estimated undiscounted amount to settle this obligation would be between \$9.0 million and \$11.7 million. The liability is estimated using a discounted cash flow with a discount rate of 3.635% (December 31, 2016 - 3.635%).

### (b) Long-term incentives

Long-term incentives include the Executive Long-Term Incentive Plan (LTIP) for the Partnership. The LTIP uses performance share units and results are based primarily on Adjusted EBITDA return on capital employed using a three year average, along with other components. The LTIP is paid in cash in May of the year following the three year period it is earned. The compensation expense is recognized over the same three year period.

### (c) Restructuring

During the first quarter of 2014, the Partnership undertook a review of corporate overhead costs and identified a number of cost reduction opportunities. As of September 24, 2017, all remaining obligations had been settled and the initiative is complete.

In response to market cost pressures, in the first half of 2015, senior management undertook a comprehensive review of its cost structure and identified a number of cost reduction opportunities. As of September 24, 2017, there was a remaining provision of \$0.2 million.

#### 12 Segment information

#### **Reportable segments**

Management has determined the operating segments based on the reports reviewed by the Chief Executive Officer who is considered to be the Chief Operating Decision Maker. The Partnership operates in three industry segments: Consumer, Away From Home (AFH) and Other.

(a) Consumer

This segment operates using the Partnership's manufacturing facilities in Canada (New Westminster, British Columbia; Crabtree, Quebec; Sherbrooke, Quebec; Gatineau, Quebec) and in the United States (Memphis, Tennessee). The Consumer segment includes sales of branded tissue products such as Cashmere<sup>TM</sup>, Purex<sup>TM</sup>, White Swan<sup>TM</sup>, Scotties<sup>TM</sup>, Sponge Towels<sup>TM</sup> and White Cloud<sup>TM</sup> and private label tissue products.

### (b) AFH

This segment operates using the Partnership's manufacturing facilities in Canada. The AFH business sells tissue products primarily through distributors to businesses involved in property management, health care, food service, manufacturing and lodging and also to public facilities.

(c) Other

This segment includes sales of parent rolls by the Partnership to other tissue manufacturing companies primarily in the United States and also in Canada and sales of recycled fibre primarily to its parent company. It also includes start-up costs related to capital projects.

Segment operating income is the earnings (loss) for each such segment before (i) interest expense, (ii) income taxes, (iii) depreciation, (iv) amortization, (v) impairment (gain on sale) of non-financial assets, (vi) loss (gain) on disposal of property, plant and equipment, (vii) foreign exchange loss (gain), (viii) costs related to restructuring activities, (ix) changes in amortized cost of Partnership units liability, and (x) one-time costs due to pension revaluations related to past service. "Consumer Segment Adjusted EBITDA", "AFH Segment Adjusted EBITDA" and "Other Segment Adjusted EBITDA" means in each case the Segment operating income for the respective reportable segment of KPLP.

The Partnership's assets, operations and employees are located primarily in Canada and the United States. The same long-term assets of the Partnership are used for the Consumer, AFH and Other segments. Accordingly, assets cannot be allocated to these segments.

### Fair value

Cash and cash equivalents, trade and other receivables, receivables from related parties, advances to partners, mortgage receivable, bank indebtedness, trade and other payables, payables to related parties and distributions payable are short-term financial instruments whose fair value approximates the carrying amount, given they will mature in the near future. As of September 24, 2017, the fair values of the Credit Facility, the Nordea Facility and the Caisse Facility were \$199.0 million, \$20.3 million and \$180.6 million (December 31, 2016 – \$198.0 million, \$26.6 million and \$196.8 million), respectively, which approximates the current principal amount outstanding as the interest rate approximates current market interest rates. As of September 24, 2017, the fair values of the Quebec PM Loan and the Ontario Loan were \$26.4 million and \$2.5 million (December 31, 2016 – \$8.8 million and \$0.8 million), respectively, which are recorded on discounted future cash flows using a market rate of 4.4%, net of the government grant recorded on the below-market rate of interest.

### Fair value of the Partnership units liability

The Partnership units liability is classified as a financial liability at amortized cost. Management has estimated the fair value of the Partnership units liability using a discounted cash flow model. Significant assumptions include the income tax obligation, discount rate and an industry capitalization rate. There were no significant changes in the assumptions during the 9-month period ended September 24, 2017.
